

# Chapter KNOWLEDGE SHARING

Webinar consultation 24/05/2019

**ETIP-DG**

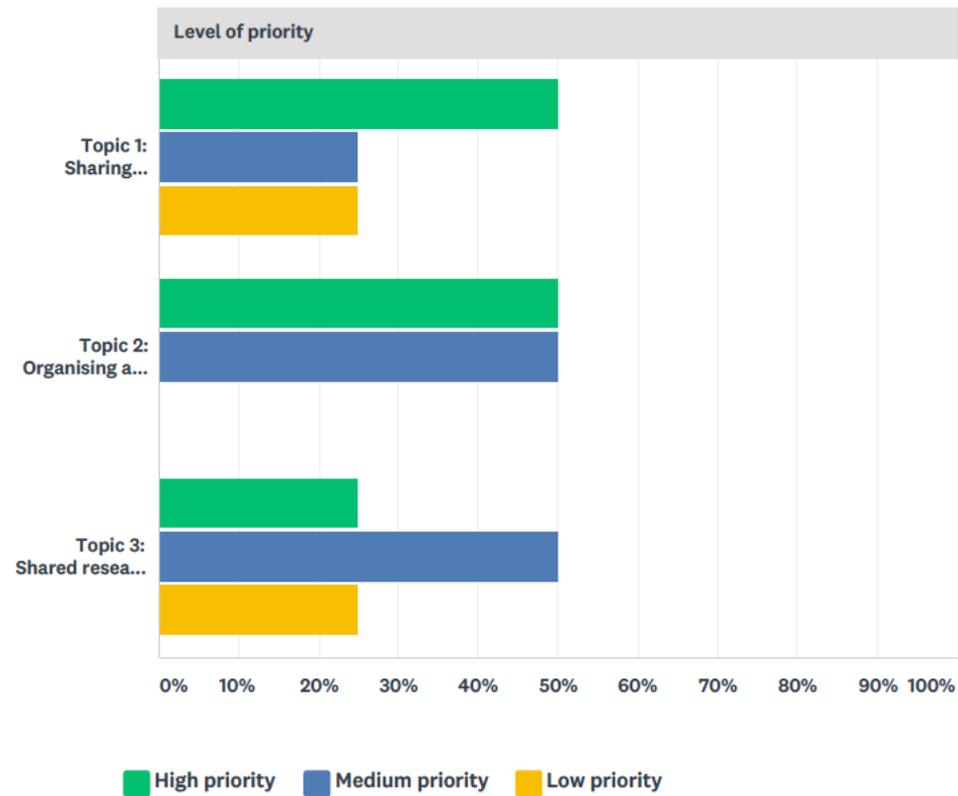

European Technology & Innovation  
Platform on **Deep Geothermal**

[www.etip-dg.eu](http://www.etip-dg.eu)

Co-funded by the European Union's Horizon 2020 Research and Innovation Programme [GA. N. 773392]

# Steering Committee assessment

## Merge :

Topic A: Harmonized DB and shared platform (Topic 1+2)

Topic B: shared research infrastructures (Topic 3)

# Topic 1: Shared and harmonized geothermal information

Open access to subsurface data from geothermal and hydrocarbon exploration, production, and mining is very partial and not shared.

## Objectives

- harmonization of data at national level (by 2023 harmonization protocol, TRL )
- Digitalization of data and information (by 2025 harmonization national database, then continuous update. TRL)
- implementation of a EU based platform (by 2023 concept, by 2025 proof of concept, TRL 8)

## Targets

- Improve access to relevant data to reduce exploration costs and manage technical and financial risks, share technical and non-technical information of interest at EU level
- KPI n.ber of MS harmonized DB, EU platform

Scope: MS partnership (require large funds at national level)

Priority: high

Timeline: continuous

# Topic 1: Shared research infrastructures

There is no shared RI specifically dedicated to geothermal topics and technologies is very partial.

## Objectives

- D for building a shared geothermal RI

## Targets

- Improve access to laboratories, wells and plants for testing and developing innovative concepts, optimise costs and performance of RI

TRL: NA

Scope: partnership, strong link to industry

Priority: high? (see priority for assessing resource potential)

Timeline: continuous
