CETPartnership and opportunities for geothermal innovation

13 October 2026

Gerdi Breembroek, CETPartnership TRI4 ‘heating and cooling’ leading expert

tri4@cetpartnership.eu

Co-funded by the European Union

What is CETPartnership?

Clean Energy Transition Partnership

A Transnational Research and Innovation Partnership for Clean Energy Transition that:

- Funds transnational projects supporting development and implementation of clean energy solutions
- Is co-financed by the EU and more than 30 countries
- Supports both technological breakthroughs and system integration

Co-funded by the European Union

Some facts about us

CETPartnership mobilises funding for research, development and innovation projects for clean energy transition.

- Total annual budget: Over **€100 million** from over 40 funding organisations and with co-funding from the EU.
- Total funding for the 2022–2027 period: **Over €700 million**, over the course of the 6-year program including EU-funding.
- **30+ countries involved.** Includes EU member states, associated countries, and global partners from both Asia and North America.

Co-funded by the European Union

Activities are organised in 7 thematic areas (TRIs)

Co-funded by the European Union

Annual Joint Calls

Each thematic area (TRI) defines the scope of one or more **Call Modules**. Call Modules are the topics of each annual Joint Call.

All involved Funding Organisations then decide which **Call Modules** they wish to participate in.

Joint Calls 2022-2026 organised; Joint Call 2027 in preparation.

Co-funded by the European Union

Opportunities for geothermal innovations

Expected Call modules (for 2027) that explicitly include geothermal:

- Advanced renewable energy technologies for power production
- Heating and cooling technologies

CETPartnership-funded projects are on the stage in the next session!

- GEOTWINS
- GEOGUARD
- Geo-Sustain
- Orka-Shield

CETPartnership Tools to Help You Succeed

– **Exploitation Guide** with readiness scales (market, commercial, societal)
– **Impact Network & Library**: stakeholders, impact & exploitation methodologies
– **Recorded Training Webinars** on validation, impact, exploitation & commercialisation
– **Pitching & Matchmaking** events to build your exploitation team early

Co-funded by the European Union

Interested?

You should consider CETPartnership when …

- … your innovation could be accelerated by a consortium with at least three partners from at least three countries
- … and these countries participate in the relevant Call module
- … and your consortium matches the other criteria

Timeline

- Call launch 2027 will be end of May 2027
- Preproposal submission first half of October
- Full proposal submission March 2028
- Feedback on full proposal late June / early July 2028
