European Technology & Innovation Platform on Geothermal

ETIP Geothermal PRIORITIES FOR HORIZON EUROPE

Work Program 2026-27

Need updates ?

- See Calls 2026
- New Needs! (e.g. clean energy sources for peak load of geothermal DH by 2030)

1. Increase sustainable production of geothermal in Europe

2. Innovative approaches for the geothermal acceleration areas

3. Enhancing geothermal energy integration in the energy system

4. Novel materials and equipment for smart operation of geothermal plants

5. Demonstration of critical raw materials production made in Europe from geothermal sources

ETIP-G Secretariat

Reports

1. Factsheets on policy developments
2. Industrial Strategy
3. Roadmap of Geothermal

Funding Update

New funding begins 1Q '26

Short Promotional Movie
02 October 2025

The deliverable D7.6 is a series of short, engaging videos focused on geothermal technologies published on the ETIP-Geothermal (ETIP-G) website...

Recruitment material for ETIP-G

The D7.3 Recruitment Material for ETIP-Geothermal (ETIP-G) is a part of the ETIP-G dissemination toolkit designed to enhance outreach, increase...

ETIP Geothermal Newsletter

During the project duration from 01/09/2022 to 31/08/2025, 9 newsletters have been released by the ETIP Geothermal. More e-news have...

Dissemination Toolkit for IWG and ETIP

The D7.2 Dissemination Toolkit is a strategic communication package developed to support the Implementation Working Groups (IWG) and European Technology...

Geothermal Implementation Working Group

Since 2020, the Support Unit of the Geothermal Implementation Working Group has been monitoring the execution of the Geothermal Implementation...

To achieve a threefold increase in geothermal energy capacity by 2030, a dedicated industrial strategy is essential. The European Commission...

ETIP-G Outreach 2025

Events

June 17, Brussels
**European Geothermal
Policy Summit**

▶ *first of its kind!*

October 6-10, Zurich
EGC2025

November 4-5, Odense
SET Plan Conference 2025

ETIP Geothermal
European Technology & Innovation
Platform on Geothermal

European Geothermal Summit

*Geothermal Cities: How can the European
Geothermal Action Plan unlock investments?*

Tuesday, 17 June 2025

COMET MEETINGS

20 Place Stéphanie,
1050 Brussels

9:30 - 16:10 CEST

EU Funding Opportunities for Geothermal Scale-Up
Accelerating Industrial Decarbonisation through Geothermal R&I

20 November 2025 10:00 to 11:45 CET

EGEC **ETIP Geothermal**

ETIP-G 2026 Preview

Events & Activities

EGEC

- Geothermal DHC Days
- Geothermal Heat Pump Days
- European Geothermal Summit

ETIP

- Geothermal Innovation Days

ETIP WG

- Web Meetings
- In Person Meetings

EU

- Set Plan Conference
- EU Raw Materials Week

General

- Webinars (Funding; Exploration; CRM)

European Technology & Innovation
Platform on Geothermal

SET Plan Reform

10 actions for R&I

2024 Governance Update

- SET Plan reinforced under the Net-Zero Industry Act
- High-Level Steering Group granted stronger legal status
- Governance structure currently being updated

1. Integrating renewable technologies into energy systems

2. Reducing technology costs

3. New consumer technologies & services

4. Energy Systems resilience & security

5. New building materials & technologies

6. Industrial Energy efficiency

7. Batteries & E-mobility competitiveness

8. Renewable fuels & bioenergy

9. Carbon capture & storage

10. Nuclear safety

SET Plan Implementation

15 IWG (Implementation Working Groups)

A group for every
technology

Geothermal IWG Confirmed

Vision and Common
Implementation and
Investment Plan (CIIP)

5 Temporary Task Forces (2025-27)

Circularity & Materials
Substitution

R&I for societal needs
