ETIP Geothermal PRIORITIES FOR HORIZON EUROPE

Work Program 2026-27

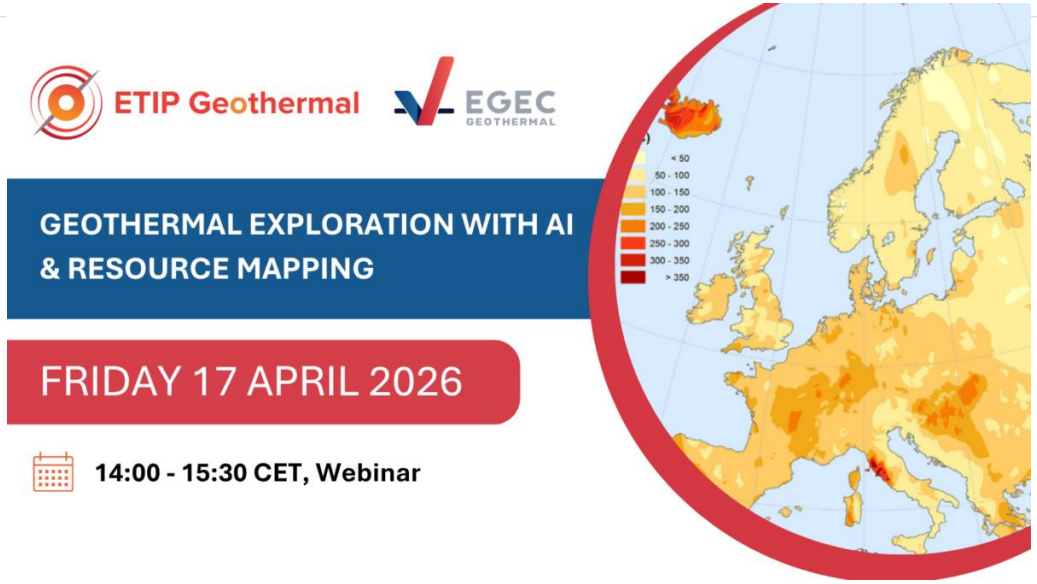

1. Increase sustainable production of geothermal in Europe
2. Innovative approaches for the geothermal acceleration areas
3. Enhancing geothermal energy integration in the energy system
4. Novel materials and equipment for smart operation of geothermal plants
5. Demonstration of critical raw materials production made in Europe from geothermal sources

ETIP-G Outreach 2026

Webinars

17 April: ***Geothermal exploration with AI & resource mapping***

3 July: ***EU Funding Opportunities for Geothermal projects***

Communications

E-newletters | LinkedIn

Update SRIA

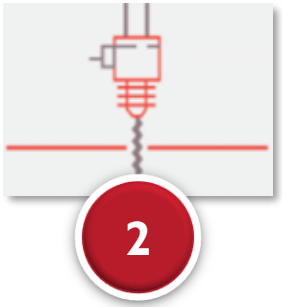

- October: agreed table of contents
- November: WGs meetings

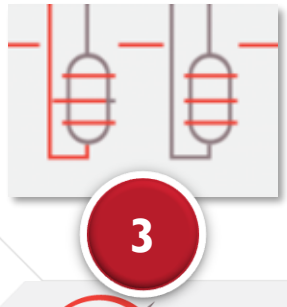

ETIP-G Working Groups

Geo Resources Assessment

Well Technologies

Power Systems

H&C Systems & Storage

Materials & Manufacturing

Environment, Circularity & Sustainability

SSH

Elections

- October: Official launch of applications!
- December: Online vote

Thank you
